Forecast for Saturday 24 Jul 2021

Weather: Some early low cloud around far northern ranges such as Ben Hope, also around the northern end of the Great Glen, which may return late evening. Otherwise a fine, dry and warm to hot day for virtually all peaks with plentiful sunshine, coupled with light winds. However not as hot as recent days and there will be a small risk of isolated late afternoon showers developing in the west.

Chance of cloud free mountain/hill tops above 800m: Near 100% with the early and late lower cloud expected to be confined below this level.

Visibility: Generally good or very good, but very poor in lower cloud early and late in far north and around northern end of Great Glen where cloud could be quite extensive for a time between 100 and 300m.

Met Office Aberdeen Meteorologist's View
High risk of sunburn in exposure.

Forecast for Sunday 25 Jul 2021
Weather: Similar to Saturday with the vast majority enjoying another fine, dry, sunny, warm to hot day. However some lower cloud in far north and east early and late in the day, also a chance of the odd afternoon shower bubbling up.

Maximum wind: Variable, mostly easterly, 15mph or less.

Chance of cloud free mountain/hill tops above 800m: Near 100% with the early and late lower cloud expected to be confined below this level.

Visibility: Generally good or very good, but very poor in lower cloud early and late in far north and around northern end of Great Glen where cloud could be quite extensive for a time between 100 and 300m.

Temperature: **Glens:** Plus 6 Celsius increasing 26 Celsius for a time during the afternoon
At 800m: Plus 12-15 Celsius increasing 18 Celsius for a time during the afternoon
Freezing level: Well above all summits
